

Serving the International Linear Algebra Community

Issue Number 30, pp. 1–36, April 2003

Editor-in-Chief: George P. H. STYAN
styan@math.mcgill.ca

Dept. of Mathematics & Statistics, McGill University
805 ouest, rue Sherbrooke Street West
Montréal (Québec), Canada H3A 2K6

Editor-in-Chief: Hans Joachim WERNER
werner@united.econ.uni-bonn.de

Department of Statistics
Faculty of Economics, University of Bonn
Adenauerallee 24-42, D-53113 Bonn, Germany

Associate Editors: Jerzy K. BAKSALARY, Oskar Maria BAKSALARY, S. W. DRURY, Stephen J. KIRKLAND, Steven J. LEON,
Chi-Kwong LI, Simo PUNTANEN, Peter ŠEMRL & Fuzhen ZHANG. *Editorial Assistants:* Evelyn M. STYAN & J. C. SZAMOSI.

Editors-in-Chief: Robert C. THOMPSON (1988); Jane M. DAY & R. C. THOMPSON (1989); Steven J. LEON & R. C. THOMPSON (1989–1993);
Steven J. LEON (1993–1994); Steven J. LEON & George P. H. STYAN (1994–1997); George P. H. STYAN (1997–2000).

ILAS President's and Vice President's Annual Report: April 2003 (Daniel Hershkowitz & Roger A. Horn)	2
ILAS Treasurer's Annual Report: March 1, 2002–February 28, 2003 (Jeffrey L. Stuart)	5
Up with Determinants! (Garry J. Tee)	7
Gottfried Wilhelm von Leibniz: 1646–1716 (R. William Farebrother, George P. H. Styan & Garry J. Tee)	13
Defining the Determinant (William R. Knight)	16
Another Matrix Representation of Quaternions (R. William Farebrother)	16
Eigenvalues and Latent Roots (R. William Farebrother)	20
Indexing IMAGE: 1–30 (1988–2003) (J. C. Szamosi & George P. H. Styan)	3

Conferences and Workshops in Linear Algebra and Matrix Theory

10 June 2003: Halifax, Nova Scotia	18
5–8 August 2003: Dortmund, Germany	18
8–10 September 2003: Caparica, near Lisbon, Portugal	19
14–16 December 2003: Fort Lauderdale, Florida	19
17–20 December 2003: Bangalore, India	19
19–21 August 2004: Będlewo, near Poznań, Poland	20
29 March–1 April 2005: Auckland, New Zealand	20

IMAGE Problem Corner: Old Problems, Many with Solutions

28-2: Linear Combinations of Imaginary Units	21
28-3: Ranks of Nonzero Linear Combinations of Certain Matrices	22
29-1: A Condition for an EP Matrix to be Hermitian	22
29-2: Triangle with Vertices Circumscribing an Ellipse	23
29-3: Isometric Realization of a Finite Metric Space	24
29-4: Normal Matrix and a Commutator	24
29-5: Product of Two Hermitian Nonnegative Definite Matrices	24
29-6: Product of Companion Matrices	26
29-7: Complementary Principal Submatrices and Their Eigenvalues	26
29-8: A Range Equality Involving an Idempotent Matrix	27
29-9: Equality of Two Nonnegative Definite Matrices	28
29-10: Equivalence of Three Reverse-Order Laws	31
29-11: The Minimal Rank of a Block Matrix with Generalized Inverses	33
29-12: Matrices Commuting with the Vector Cross Product	33
29-13: Normal Matrices with Prescribed Diagonal Elements and Their Differences Elsewhere	34

IMAGE Problem Corner: New Problems	36
